Description

To reserve Form.id values, the AUTO_INCREMENT value has been set to 1000 for table Form.

- For DB Update, a check should be implemented if some custom table is below 1000. If yes, move all custom tables beyond 1000 (Update Form and FormElement).
- This check is only necessary for qfq versions below 0.19.4.

This is a high prio issues, cause the new form 'cron' won't be installed, if there is already a with Form.id=4 (which is typically the case).

History

#1 - 09.09.2017 15:03 - Carsten Rose

- Target version set to next4

#2 - 13.10.2018 17:48 - Carsten Rose

- Tracker changed from Support to Feature

#3 - 11.12.2019 16:03 - Carsten Rose

- Status changed from New to Some day maybe
