Description			
<ul style="list-style-type: none">• It might be usefull, to download via web, specific attachements like PDF files. (lean > lean-gate)• A additional parameter, like 'w:', might be used to download an external reference.• It should be possible to check the downloaded file for a mime type and handle it in a correct way.• E.g. if the download is a PDF, it could be delivered directly or concatenated.			

History

#1 - 02.09.2017 13:42 - Carsten Rose

- Subject changed from *_link|download: check downloaded content for mimetime - respect it to _link|download: downloaded external URL to deliver/contanete - check mimetipe and handle it correctly*
