

QFQ - Bug #5557

Form load: STORE_RECORD filled, but should be empty

27.02.2018 01:13 - Carsten Rose

Description

It seems that, if multiple tt-content QFQ records exist, with some 'report' code in the first QFQ record and a form on a second QFQ record: that form run's into trouble in case of r=0.

The STORE_RECORD contains already information, even if it should be empty!

History
