<b>Discuss:</b>	
<b>Description</b> Ideal wäre ein Syntax-Highlighting für QFQ-Syntax und SQL.  (aktuelles Highlighting im Rahmen von <a href="#">#3294</a> für sparql ist nicht befriedigend)  Mit Typo3 9.0 sollte min. die SQL-Syntax relativ einfach machbar sein, da dem t3editor zusätzliche modes eingebunden werden können: <a href="https://docs.typo3.org/typo3cms/extensions/core/Changelog/9.0/Feature-81901-ExtendT3editor.html">https://docs.typo3.org/typo3cms/extensions/core/Changelog/9.0/Feature-81901-ExtendT3editor.html</a>  Typo3 9.0 hat ausserdem zusätzliche hilfreiche Config-Optionen wie enableTabulator und fixedFont: <a href="https://docs.typo3.org/typo3cms/TCAReference/ColumnsConfig/Type/Text.html">https://docs.typo3.org/typo3cms/TCAReference/ColumnsConfig/Type/Text.html</a>  Eine andere Möglichkeit, vermutl. zu viel Aufwand: <a href="https://usetyo3.com/fs-code-snippet.html">https://usetyo3.com/fs-code-snippet.html</a>

Andreas Fernandez [2 hours ago]

Since I'm the one who built that stuff, I think it's up to me to give you support :wink:

The manual indeed misses one important thing, you have to set the format for the textarea, like it's done here: [https://github.com/TYPO3/TYPO3.CMS/blob/master/typo3/sysext/t3editor/Configuration/TCA/Overrides/sys\\_template.php#L7](https://github.com/TYPO3/TYPO3.CMS/blob/master/typo3/sysext/t3editor/Configuration/TCA/Overrides/sys_template.php#L7)

Did you do that, too? (edited)

- `/var/www/html/t95/typo3conf/ext/qfq/Configuration/Backend/T3editor/Modes.php`
- `/var/www/html/t95/typo3conf/ext/qfq/ext_tables.php`

#### #8 - 03.05.2019 22:48 - Carsten Rose

- Status changed from *In Progress* to *Closed*

- Target version changed from 146 to 19.5.0

- Andreas Fernandez hat auf [typo3.slack.com](https://typo3.slack.com) ein paar Tips gegeben.
- Das SQL Highlighting funktioniert in T3 V9/CM nicht - AF vermutet ein T3 Problem.
- Der aktuelle Stand implementiert 'sparql' fuer T3 V7 & V8. Fuer V9 gibt es kein 'sparql' - mit dem aktuellen Setting ist zumindest Highlight fuer Zahlen und Kommentare, Bracket Matching & Auto Indent aktiviert.

#### #9 - 03.05.2019 22:50 - Carsten Rose

- Subject changed from *QFQ Content Element: Backend Syntax Highlighting* to *QFQ Content Element: Backend Syntax Highlighting - t3editor in Typo3 V9 - (kompatibel 7-9)*
