Problem is still present...

The T3X file "https://typo3.org/fileadmin/ter/q/f/qfq_19.01.2.t3x" could not be fetched. Possible reasons: network problems, allow_url_fopen is off, cURL is not enabled in Install Tool.

Danke fuer das Update. Der Workaround mit File umbenennen war wohl zu kurz gedacht. Ist dann in der naechsten Version drin.
