Description			
<p>Mitunter sollen HTML Input, die auf ReadOnly stehen, trotzdem gespeichert werden. Input Felder, mit mode='ReadOnly' bekommen typischerweise das HTML Attribut 'disabled'. Solche Input Elemente werden bei einem 'Submit Form' nicht uebertragen. https://developer.mozilla.org/en-US/docs/Web/HTML/Attributes/disabled</p> <p>Da erst auf dem Server entschieden wird, ob 'ReadOnly' Felder gespeichert werden sollen, muessen diese HTML Inputs bei einem Form-Submit uebertragen werden.</p> <p>HTML tag `disabled` ist ein 'no go' falls 'processReadOnly=1' gesetzt ist.</p>
